

(BIO) PHARMA IRELAND

Innovating Medicine Manufacture

Aisling Arthur Coordinator and Chair of (bio)Pharma Ireland Working Group

(bio)Pharma Ireland Working Group

(BIO)PHARMA IRELAND WORKING GROUP

Working group objectives

Highlight the research priorities of the sector

Promote the collective research and industrial capabilities

Contribute to the development of future EU roadmaps and policy

(BIO) PHARMA EUROPE

Innovating Medicine Manufacture

Next Steps

Review and include key themes from today's sessions into White Paper:

- * Need for an enabling policy and regulatory environment;
- * Establish dialogue between (bio)Pharma Ireland and IMI 2;
- * Recognise opportunity for EU to build on existing infrastructure;
- * More (bio)Pharma manufacturing research opportunities in 9th framework programme;
- * Need for a pan European network or platform

Next Steps

	Activity	Due
1	Solicit and accept feedback on White Paper	March
2	Publish White Paper	April
3	Launch (bio)Pharma Europe platform	June
4	European Parliament hearing to preview regulatory support for innovation in advanced drug manufacturing	July
5	Proposal for Council Presidency discussion	July
6	Launch of a group of MEP's to support the white paper process	Sept
