

ISC

Intelligence in Science

Magdalena Pacholska has over 8 years of work experience in international environment. In previous work she supported information management projects in the area of security, migration and borders management on European level. Certified PRINCE2 project manager, Magdalena has complemented her professional experience with university-level teaching of project management. In ISC she is responsible for strategic planning of EU affairs campaigns and horizontal coordination of key relationships.

Magdalena graduated from University of Warsaw with M.A. degree in political sciences, has specialisation diplomas in international relations (Spain), EU funds, public relations (Poland) and is currently a student in finances at ICHEC Brussels Management School.
